

Coral Seas

P O O L S

It's a lot cooler down under.

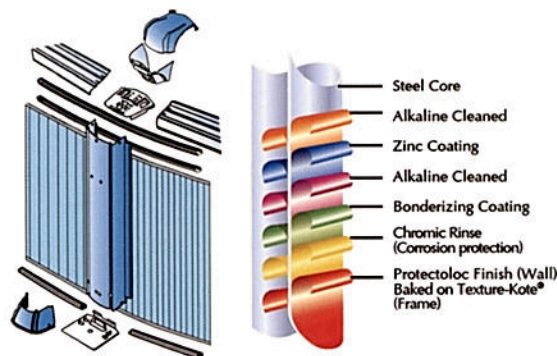

Coral Seas

Available in a wide variety of round or oval sizes, there is a Coral Seas pool to fit every backyard and every budget. The Coral Seas from OutBack™ Pools will be a beautiful addition to your backyard decor.

Quality, Style, Support and Strength

- 7" steel top rail and 6" steel vertical supports are treated with Texture-Kote™ all-weather protective coatings
- Easy to install one piece wrap-around connector and foot cover for precise fit and finish
- Extra deep wall corrugation with exclusive Protectoloc™ triple wall coating withstands even the harshest elements
- Wall core made with the heaviest gauge of steel available in the industry and double Quadra-Fold wall joints provide eight thick layers of steel at the closure
- Coral Seas utilizes the Channel Lock I buttress support system on the oval pools
- Xylon™ Stabilizer support system for easy wall installation and better corrosion protection
- Color coordinated Silhouette wall and Pearle frame will enhance your backyard décor

The top rails, verticals, and steel wall in every Outback pool undergo a state-of-the-art protective treatment process that provides incredibly long-lasting, all-weather protection with added resistance against corrosion, scratching, and damaging UV rays.

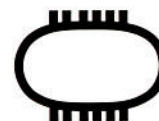

Outback ovals are engineered to require fewer or no buttresses without compromising strength and will be appreciated not only for good looks but also for ease of installation. All ovals meet or exceed the industry standard. In addition to an extensive engineering process, a vigorous backhoe test is performed prior to the launch of any new pool model.

Round Pool - 52" Wall Gallons

OutBack™ Above Ground Pools are manufactured exclusively for Superior Pool Products LLC. OutBack™ Above Ground Pools is a trademark of Alliance Trading, Inc.

DANGER: No jumping or diving. Above ground pools are designed for swimming only. Never leave children unattended.

WATER SAFETY - Your above ground pool has been designed to provide you with years of safe family fun. This entails that water safety must always be taken into account. When used incorrectly, your above ground swimming pool can be dangerous; above ground pools are shallow, and this makes diving and jumping unsafe. To ensure your above ground pool is used safely you must observe the safety precautions that are provided to you when you purchase an above ground pool and conform to all local regulations.

The dimensions, weights, illustrations and other specifications may not be exact as shown and are approximate. The company reserves the right to modify and/or discontinue without notification any feature in any pool model.
